Responsive Rules + Low-Priority Patterns

Responsive Transformations

Desktop Table → Mobile Cards

Sales, Renewals, and Expenses transform into vertical cards prioritizing amount and next action.

Multi-column Form → Single Column

Subscription Start and Expense Entry stack fields vertically for one-hand mobile use.

Sidebar → Bottom Nav + More

Infrequent Admin and Report areas move to the "More" menu on mobile devices.

Low-Priority Admin Patterns

CSV Import & Settings

Use standard D2 form patterns with progressive disclosure for optional mapping/config.

Advanced Accounting

Chart of Accounts, Journal, and Trial Balance use high-density D2 table patterns with admin-only access.

Revenue Recognition

Uses standard D2 financial table formatting with deliberate detail drawers for postings.
